

THE VILLAGE SURGERY

Average earnings calculation for the year ended 31st March 2019

Declaration to be published on the practice website

All GP practices are required to declare the mean earnings for GPs working to deliver NHS services to patients at each practice.

The mean earnings for GPs working in The Village Surgery in the financial year ended 31st March 2019 was £75,505 before deduction of employee's superannuation contributions, tax and National Insurance. This is the average pay for the 5 full-time GPs, 1 part-time GP and 3 Locum GPs who worked in the practice for more than 6 months during that year.
