

## The Life Rooms is open!

We are thrilled to announce that our buildings in Walton, Southport and Bootle are open once again after closing in March 2020 as a result of the COVID-19 pandemic.

Following the introduction of lockdown restrictions, we quickly adapted our service model to enable people within the communities we serve to access online courses and support both digitally and over the telephone.

We now offer drop-in pathways advisor appointments, as well as face to face learning sessions.

Zoom learning sessions remain in place and pathways advice and support remains accessible over the phone.

Social distancing will be maintained in all our buildings.
